# MANOR LORDS

Manor Lords

Developed by **Slavic Magic**

Published by **Hooded Horse**

Manor Lords is a medieval strategy game featuring in-depth city building, large-scale tactical battles, and complex economic and social simulations. Rule your lands as a medieval lord, watch the seasons pass, and spread your influence across the land as you bring prosperity to your people. Inspired by the art and architecture of late 14th century Franconia, Manor Lords prioritizes historical authenticity where possible, using it to inform gameplay mechanics and visuals alike to create a vibrant, believable world.

Manor Lords will release into early access for PC on **April 26, 2024** via Steam, GOG, Epci Games Stores, and the Microsoft Store. It will also be available day one via PC Game Pass. An Xbox console and Xbox Game Pass version will come later.

Slavic Magic is based in Poland.
